QUALITY POLICY

The Quality Policy of DASEL, S.L. is developed and approved by the Manager and is defined as follows:

DASEL, S.L. is aware of the great importance that quality must take in the sector in which it develops the activity of: DESIGN, MANUFACTURE, VERIFICATION AND DEVELOPMENT OF INSPECTION SYSTEMS BY ULTRASOUND

Aware of these needs, the Company's Management sets out as Quality Policy:

Create a company culture in which each person is responsible for the quality of the work he/she performs through the constant improvement of the processes, products and services offered.

It must be made known, understood, applied and maintained at all levels in the Organization of the Company.

Therefore DASEL, S.L. establishes the following General Quality Objectives:

- Our Quality policy is based on ensuring compliance with the requirements of our customers and other stakeholders, based on meeting their current and potential needs and expectations.

- It is a principle of continuous improvement for the company analyzing the experiences, suggestions and perceptions of our customers to guide our action to respond with agility and efficiency.

- Have the most competitive teams in terms of innovation and quality, and make them available to our customers and operators on time.

- DASEL, has oriented its policy based on the principle of excellence of the management of processes and working procedures in order to achieve outstanding results with respect to our organization and customers.

- Improve internal operational functioning by conducting documentation that unifies our operation.

- Comply with legal and regulatory requirements.

- Manage our business effectively.

- Develop stable relationships with suppliers to improve customer satisfaction.

- The Dasel Management, S. L, pursues the improvement continues to train, motivate and stimulate the staff, providing the organization with the material means necessary for this purpose.

- All staff who are part of DASEL, S. L, apply the management system defined in the Quality Management Manual based on the working processes and procedures, which ensures the realization of all the activities necessary to achieve the quality objectives established by the organization.

- Facilitate the level of training necessary for the efficient performance of the functions and tasks of our workers. Giving the organization the material means necessary for this purpose.

The objectives of Quality must be properly planned, setting deadlines and responsible, in order to improve the effectiveness of our quality system.
